Superintendent Siviski welcomed participants and outlined the objectives of the evening:

- review the recent assessment data;
- analyze where changes need to be made;
- process performance scores of meets / exceeds standards through the lens of diploma requirements

Curriculum Coordinator Christine Chamberlain shared a Power Point of the performance graphs of each grade level in both Reading and Mathematics. Participants then organized into town groups to analyze results and delve deeper into where weaknesses exist and how interventions for specific practices could be addressed. Acting upon results is essential after a discovery of weaknesses in curriculum, instruction and individual student performance have been identified.

Board members passed their copy of Tony Wagner's *Global Achievement Gap* to Teacher Curriculum Leaders.
