

09-10 Summary of NCLB Report Card
RSU #2
Dresden

The two-year average of students' scores from various state/national assessments for the years 2007-2008 and 2008-2009 indicate the following points of interest.

Reading Grade 3:

- 71% of students scored at the meets/exceeds level in reading compared to 64% of all the 3rd graders in Maine
- 83% of grade 3 female students scored meets/exceeds, which is 14% points higher than all females in the state. (based on one year data for Dresden)
- 62% of male students scored meets/exceeds, which is 2% points higher than the state average of all males.
- 69% of economically disadvantaged students scored meets/exceeds. This is 2% points lower than the results of "all students" in grade 3 in Dresden. It is 17% points higher than the state average for economically disadvantaged students.

Mathematics Grade 3:

- 71% of students scored at the meets/exceeds level in math compared to 69% of all 3rd graders in Maine
- 67% of female students scored at the meets/exceed level, which is equal to the state average for all females.
- 71% of male students scored at the meets/exceeds level which is 1% points higher than all males in Maine.
- 69% of our economically disadvantaged students scored meets/exceeds, which is 12% points higher than the state average for economically disadvantaged students. It is 2% points lower than all students in grade 3 in Dresden.

Reading Grade 4:

- 71% of students scored at the meets/exceeds level in reading which is 4% points higher than the average of all 4th graders in Maine
- 75% of female students in grade 4 scored at the meets/exceeds level which is 4% points higher than the average of all grade 4 females in Maine
- 67% of male students scored at the meets/exceeds level which is 3% points higher than the state average
- 78% of economically disadvantaged students scored meets/exceeds, which is 7% point higher than the results of "all students" in grade 4 in Dresden. It is 1% point higher than the state average for economically disadvantaged students.

Mathematics Grade 4:

- 73% of students scored at the meets/exceeds level in math compared to 67% of all 4th graders in Maine
- 70% of female students scored at the meets/exceeds level vs. 63% of all females in Maine.

- 74% of male students scored at the meets/exceeds level which is 9% points higher than the score of all 4th grade males in Maine.
- 55% of our economically disadvantaged students scored at the meets/exceeds level, which is 18% points lower than “all students” in grade 4 in Dresden. It is 5% points higher than the state average for economically disadvantaged students.

Reading Grade 5:

- 52% of students scored at the meets/exceeds level in reading, which is 13% points lower than the state average of all the 5th graders in Maine
- 55% of female students in grade 5 (based on one year of data in Dresden) scored at the meets/exceeds level vs. 69% of all grade 5 females in Maine
- 50% of male students scored at the meets/exceeds level which is 12% points lower than the state average of all grade 5 boys.
- 24% of economically disadvantaged students scored meets/exceeds, which is 28% points lower than the results of “all students” in grade 5 in Dresden. It is 28% points lower than the state average for economically disadvantaged students.

Mathematics Grade 5:

- 59% of all 5th grade students in Dresden scored at the meets/exceeds level in math compared to 65% of all 5th graders in Maine
- 67% of female students scored at the meets/exceeds level (based on one year of data in Dresden) vs. 64% of all grade 5 females in Maine.
- 55% of male students scored at the meets/exceeds level which is 10% points higher than all males in Maine.
- 48% of our economically disadvantaged students scored at the meets/exceeds level, which is 11% points lower than “all students” in grade 5 at Dresden. It is 4% points lower than the state average for economically disadvantaged students.

Dresden Reading Grade 6:

- 75% of students scored at the meets/exceeds level in reading compared to 71% of all the 5th graders in Maine
- 100% of female students in Dresden grade 6 (based on one year of data in Dresden) scored at the meets/exceeds level vs. 76% of all females in Maine
- 69% of male students scored at the meets/exceeds level which is 3% points higher than the state average
- 69% of economically disadvantaged students scored meets/exceeds, which is 6% points lower than the results of “all students” in grade 6 in Dresden. It is 11% points higher than the state average for economically disadvantaged students.

Dresden Mathematics Grade 6:

- 39% of students scored at the meets/exceeds level in math compared to 54% of all 6th graders in Maine
- 50% of female students scored at the meets/exceeds level vs. 53% of the state average of all females in Maine.
- 34% of gr. 6 male students in Dresden scored at the meets/exceeds level which is 21% points lower than all males in Maine.

- 29% of our economically disadvantaged students scored at the meets/exceeds level, which is 10% points lower than “all students” in grade 6 at Dresden. It is 11% points lower than the state average for economically disadvantaged students.

Dresden Reading Grade 7:

- 74% of students scored at the meets/exceeds level in reading compared to 76% of all the 7th graders in Maine
- 77% of female students in grade 7 scored at the meets/exceeds level (based on one year of data in Dresden) vs. 82% of all females in Maine
- 74% of male students scored at the meets/exceeds level which is 3% points higher than the state average
- 62% of economically disadvantaged students scored meets/exceeds, which is 12% points lower than the results of “all students” in grade 7 in Dresden. It is 2% points lower than the state average for economically disadvantaged students.

Dresden Mathematics Grade 7:

- 34% of students scored at the meets/exceeds level in math compared to 55% of all 7th graders in Maine
- 31% of female students scored at the meets/exceeds level, (based on one year of data in Dresden) which is 26% points lower than the average of all gr. 7 females in Maine.
- 39% of male students scored at the meets/exceeds level which is 16% points lower than all grade 7 males in Maine.
- 23% of our economically disadvantaged students scored at the meets/exceeds level, which is 8% points lower than “all students” in grade 7 at Dresden. It is 17% points lower than the state average for economically disadvantaged students.

Dresden Reading Grade 8:

- 69% of students scored at the meets/exceeds level in reading compared to 71% of all the 8th graders in Maine
- 80% of female students in grade 8 scored at the meets/exceeds level (based on one year of data in Dresden) vs. 77% of all females in Maine
- 54% of male students scored at the meets/exceeds level which is 12% points lower than the state average
- 71% of economically disadvantaged students scored meets/exceeds, (based on one year of data in Dresden) which is 4% points higher than the results of “all students” in grade 8 in Dresden. It is 15% points higher than the state average for economically disadvantaged students.

Dresden Mathematics Grade 8:

- 44% of students scored at the meets/exceeds level in math which is 8% points lower than the state average of all 8th graders in Maine
- 53% of female students scored at the meets/exceeds level, which is equal to all females in Maine.
- 35% of male students scored at the meets/exceeds level, which is 16% points lower than all males in Maine.

- 29% of our economically disadvantaged students scored at the meets/exceeds level, (based on one year of data in Dresden) which is 15% points lower than “all students” in grade 8 at Dresden. It is 7% points lower than the state average for economically disadvantaged students.

Dresden HS Students’ Reading Scores:

- 52% of students scored at the meets/exceeds level in reading compared to the state results of 49%.
- 59% of female students scored at the meets/exceeds level vs. 52% of all high school students in Maine
- 47% of male students scored at the meets/exceeds level which is equal to the state average
- 37% of economically disadvantaged students scored meets/exceeds, which is the 15% points lower than the results of “all students” in high school in Dresden. It is 4% points higher than the state average for economically disadvantaged students.

Dresden HS Students’ Mathematics Scores:

- 34% of students scored at the meets/exceeds level in math compared to 42% of all high school students in Maine
- 38% of female students scored at the meets/exceeds level vs. 41% of all females in Maine.
- 32% of male students scored at the meets/exceeds level which is 11% points lower than all males in Maine.
- 20% of our economically disadvantaged students scored at the meets/exceeds level which is 14% points lower than “all students” in high school at Dresden. It is 5% points lower than the state average for economically disadvantaged students.

Teacher Qualifications:

- All classes are taught by teachers who have “highly qualified” teacher endorsement.
- 0 teachers in Dresden have a conditional/emergency certification
- 6 teachers at Dresden Elementary School have a Master’s Degree
